Udemy, Bootcamp —Complete Full-Stack Web Development

July 2022 - September 2022

Moi University, Kesses — BSC. Applied Statistics With Computing

September 2016 - June 2021

Tree Planting Website with Stripe and M-Pesa Integration
- Built a dynamic tree planting website utilizing React and Tailwind Css for the frontend, Node.js for the backend, and MongoDB for the database. Skillfully integrated both Stripe and M-Pesa payment gateways to streamline donation processing, showcasing expertise in front-end development, payment integration, and API utilization.

Construction Company Website-https://atesta-solutions.web.app/
- Developed and designed a static website for a construction company as a personal project, using HTML, CSS, and JavaScript. Designed a visually appealing and a user-friendly website that showcases the company's services and projects. Implemented responsive design techniques to ensure the website looked great on desktop and mobile devices.

Amaris Solution Group — Software Engineer Intern

April 2023 - July 2023
- Developed responsive and user-friendly web interfaces using React and TypeScript.
- Designed and implemented backend functionality using Ruby on Rails, enhancing system performance.

- Integrated GraphQL for efficient data retrieval and manipulation, resulting in improved application speed.
- Participate in code reviews and writing testing to ensure code quality and performance.
